SALTON COMMUNITY SERVICES DISTRICT

FINANCIAL STATEMENTS
WITH
INDEPENDENT AUDITOR'S REPORT

AS OF AND FOR THE FISCAL YEAR ENDED JUNE 30, 2014

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Salton Community Services District Salton City, California

I have audited the accompanying financial statements of the Salton Community Services District (the "District") as of June 30, 2014 and the related notes to the financial statements, which collectively compromise the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted the audit in accordance with auditing standards generally accepted in the United States of America and the State Controller's minimum audit requirements for California Special District. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

I was unable to examine supporting documentation for capital assets, because such records were not maintained by the District, nor was I able to satisfy myself as to the value of these capital assets by other auditing procedures.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Salton Community Services District as of June 30, 2014, and the

changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America as well as accounting systems prescribed by the State Controller's Office and state regulations governing special districts.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 9 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

In accordance with Government Auditing Standards, I have also issued my report dated January 13, 2015, on my consideration of the Salton Community Service District internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of my audit

Other Information

My audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the financial statements as a whole. The supplementary schedules on pages 39 through 42 are presented for purposes of additional analysis and is not a required part of the financial statements. The information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

And I was

January 13, 2015

SALTON COMMUNITY SERVICES DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2014

The following section of the annual financial report of the Salton Community Services District (the District) includes an overview and analysis of the District's financial position and activities for the years ended June 30, 2014 and 2013. This discussion and analysis, as well as the basic financial statements which it accompanies, is the responsibility of the management of the District.

Introduction to the Basic Financial Statements

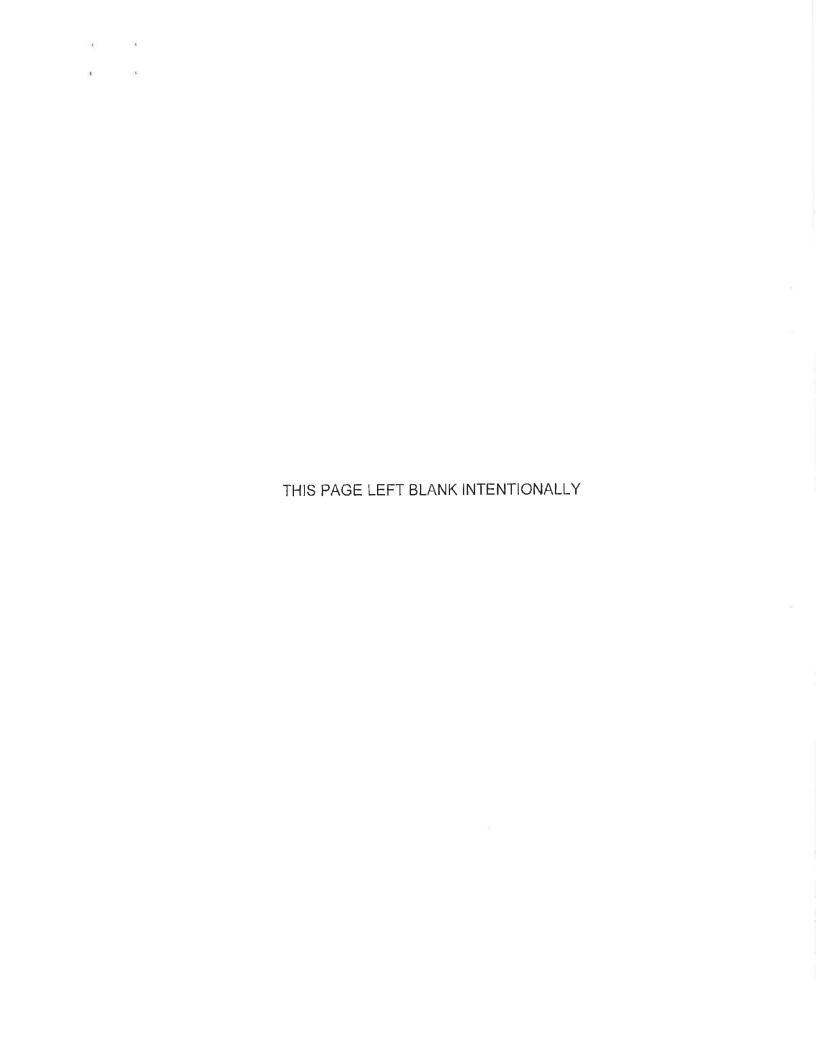

This annual report consists of a series of financial statements, prepared in accordance with generally accepted accounting principles; such report has been designed to improve the usefulness of the report to the primary users of these basic financial statements.

The District presents its basic financial statements using the economic resources measurement to focus and accrual basis of accounting. The Sewer Maintenance fund and the Sewer Construction fund are reported as a Business-Type Activity. The District's basic financial statements include a Statement of Net Assets; a Statement of Revenues, Expenses, a Statement of Changes in Net Assets; and a Statement of Cash Flows. Notes to the basic financial statements and this section support these statements. All sections must be considered together to obtain a complete understanding of the financial position and results of operations of the District.

Statements of Net Assets – The Statements of Net Assets include all assets and liabilities of the District, with the difference between the two reported as net assets. Assets and liabilities are reported at their book value, on an accrual basis, as of June 30, 2014, and 2013. These statements also identify major categories of restrictions on the District's net assets.

Statements of Revenues, Expenses, and Changes in Net Assets – The Statements of Revenues, Expenses, and Changes in Net Assets present the revenues earned and expenses incurred by the District during the years ended June 30, 2014, and 2013, on the accrual basis of accounting.

Statement of Cash Flows – For the District's Business-Type Activity – The Statements of Cash Flows present the changes in the District's cash and investments for the years ended June 30, 2014 and 2013. Such statements are summarized by operating, capital, and noncapital financing and investing activities. The statements of cash flows have been prepared using the direct method of reporting cash flows and, therefore, present gross, rather than net amounts, for each respective year's activities.

SALTON COMMUNITY SERVICES DISTRICT RECONCILIATION OF THE STATEMENT OF REVENUES, EXPEDITURES, AND CHANGES IN FUND BALANCE OF GOVERMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2014

Amounts reported for governmental activities in the statement of activities (page 13) are different because:

Net change in fund balances-total governmental funds (page 15)

(\$ 75,718)

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets should be allocated over their estimated useful lives and reported as depreciation expense. See discussion in note 3 to the financial statements. This is the amount of capital outlays in the current period.

-0-

Repayment of capital lease principal is an expenditure in the Governmental funds, but the repayment reduces long-term Liabilities in the statement of net position.

Principal repayments

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Salton Community Services District (District) have been prepared in conformity with generally accepted accounting principles as applied to governmental units. The Governmental Accounting Standards Board is the accepted standard-setting body of establishing governmental accounting and financial reporting principles. The District's more significant accounting policies are described below.

A. Reporting Entity

The District was formed under government code section 61600 of the State of California on June 13, 1955.

The District was established and formed to provide the following:

- 1. Collect, treat, or dispose of sewage.
- 2. Collect, transfer and dispose of solid waste.
- 3. Provide fire protection.
- 4. Acquire, construct recreation facilities.
- 5. Organize, promote community recreation.
- 6. Acquire, construct, and improve lighting and landscaping.
- 7. Provide emergency medical services.

Blended Component Unit:

On October 15, 2002, the Board approved and authorized the execution and filing of the organizational documents relating to the Salton Community Services District Financing Corporation. The District authorized an administration and assignment agreement for certificates of participation (2002 financing project) in an aggregate principal amount not to exceed \$ 950,000 for the purpose of securing a loan from the U.S. Department of Agriculture Rural Utility Service.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Fund Accounting

The District uses funds to report on its' financial position and the results of its' operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Governmental funds are used to account for or most of a government's general activities, including the collection of property taxes and the acquisition or construction of capital assets. The general fund is used to account for all activities of the general government not accounted for in some other fund.

The governmental fund types of the District consists of the general fund and the proprietary funds. The general fund is made up of the General, and the Channel Maintenance Funds. The proprietary funds consists of the Sewer Construction fund and the Sewer Maintenance fund.

C. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet.

Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Accounting (Continued)

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction that can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

D. Cash and Investments

Cash includes amounts in demand deposits.

Investments consist of time certificates of deposits and the California Local Investment Fund (LAIF). These investments are stated at fair value.

E. Inventories

Inventories, stated at cost, consist of various materials needed for the sewer construction.

F. Interfund Activity

During the normal course of business, individual funds may receive or pay amounts for other funds, giving rise to interfund receivable or payables which are liquidated shortly thereafter. Interfund balances were comprised of the following as of June 30, 2014:

	ue From ier Funds	Due To Other Funds		
General Fund Chanel Maintenance Sewer Maintenance Sewer Construction	\$ 21,836 25,294 8,314 6,000	\$	20,362 3,221 37,861 -0-	
Total	\$ 61,444	\$	61,444	

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates under different assumptions or conditions.

NOTE 2 - CASH AND INVESTMENTS

The District operates its idle cash investments under the Prudent Man Rule (California Civil Code Sections 2261 et seq.). This affords the District a broad spectrum of investment opportunities as long as the investment is deemed prudent and is allowable under current legislation of the State of California (Government Code Section 53600 et seq.).

In accordance with Section 53601 of the California Government code, the District may invest in the following types of instruments:

- a. Securities of the U.S. Government, or its agencies
- b. Certificates of deposit
- c. Negotiable certificates of deposit
- d. Bankers acceptances
- e. Commercial paper
- f. Local Agency Investment Fund (LAIF)

California Local Agency Investment Fund (LAIF)

The Local Agency Investment Fund (LAIF) is a special fund of the California State Treasury through which local governments may pool investments. Each Local government may invest up to \$ 20,000,000 in this fund. Investments are highly liquid and may be converted to cash within 24 hours. This type of investment is not subject to categorization.

NOTE 2 - CASH AND INVESTMENTS (Continued)

The District's investments with LAIF at June 30, 2014 include a portion of the pool funds invested in structured notes and asset-backed securities. These investments may include the following:

Structured Notes are debt securities (other than asset-backed securities) whose cash-flow characteristics (coupon rate, redemption amount, or stated maturity) depend upon one or more indices and/or that have embedded forwards or options.

Asset-backed securities, the bulk of which are mortgage-backed securities, entitle their purchasers to receive a share of the cash flows from a pool of assets such as principal and interest repayments from a pool of mortgages (such as CMOs) or credit card receivables.

As of June 30, 2014, LAIF had invested 3.086% of the pool investment funds in structured notes and asset-backed securities.

Classification of Deposits and Investments by Credit Risk:

Deposits and investments are classified into three categories of credit risk. These categories are as follows:

Deposits:

- Category 1 Deposits which are insured by FDIC, a state depository insurance fund or a multiple-financial institution collateral pool, or deposits which are collateralized with securities held by the District or the District's agent in the District's name.
- Category 2 Deposits which are collateralized with securities held by the pledging financial institutions trust department in the District's name.
- Category 3 Deposits which are uncollateralized, or collateralized but the pledge securities are not held in the District's name.

NOTE 2 - CASH AND INVESTMENTS (Continued)

Category 1 -

Investments:

	the securities are held by the District or the District's agent in the District's name.
Category 2 -	Investments which are uninsured and unregistered where the securities are held by the purchasing financial institution's trust department

or agent in the District's name.

Investments which are insured by SIPC, or where

Category 3 - Investments which are uninsured and unregistered where the securities are held by the purchasing financial institution's trust department or agent, but not in the District's name.

Investments Not Subject to Categorization:

Investments in the California Local Agency Investment Fund (LAIF) are not required to be categorized, as they are investment pools managed by another government.

Deposits and investments were categorized as follows as of June 30, 2014:

Deposits:	0	atego _ 2		3	-	Required To Be egorized	Ba Bala	nk nces_		arrying mount

NOTE 4 - PROPERTY TAXES AND SPECIAL ASSESSMENT REVENUE

Revenue is recognized in the fiscal year for which the tax and assessment is levied. The County of Imperial levies, bills and collects property taxes and special assessments for the District; under the County's "Teeter Plan" the County remits the entire amount levied and handles all delinquencies, retaining interest and penalties. Secured and unsecured property taxes are levies on January 1 of the preceding fiscal year.

Secured property tax is due in two installments, on November 1 and February 1 and becomes a lien on those dates. It becomes delinquent on December 10 and April 10, respectively. Unsecured property tax is due on July 1, and becomes delinquent on August 31.

The term "unsecured" refers to taxes on personal property other than real estate, land and buildings. These taxes are secured by liens on the personal property being taxes. Secured and unsecured property tax revenues are recognized by the District in the fiscal year they are assessed provided they become available as defined above.

NOTE 5 - RETIREMENT PLAN

Plan description: PERS defined benefit

The District contributes to the Miscellaneous 2% at 60 Risk Pool of the California Employees Retirement System (CalPERS), a cost sharing, multiple-employer public employee defined benefit pension plan. CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. As of July 1, 2005, the District was mandated by the State to participate in the risk pool. The risk pool combines the assets and liabilities across employers of the same risk pool to provide a method to spread the risk of uncertain gains and losses over a larger base of members. The June 30, 2003 valuations were the first pooled valuations. Benefit provisions and all other requirements are established by State statute and District resolutions. Copies of CalPERS' annual financial report may be obtained from their Executive Office located at, 400 P Street, Sacramento, CA 95814.

NOTE 5 - RETIREMENT PLAN (CONTINUED)

Funding policy:

The District contributes all amounts necessary to fund benefits for its employees. The contribution includes an employee portion of 7% of current covered payroll. The District is also required to contribute any actuarially determined remaining amounts necessary to fund the benefits for its members. The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. The required employer contribution rate for the year ended June 30, 2014 was 5.419%. The contribution requirements of the plan members are established by State statute and the employer contribution rate is established and may be amended by CalPERS. The District's contributions to CalPERS for the years ended June 30, 2014, 2013 and 2012, which were all prepaid by the District at the beginning of the year, were \$39,100, \$25,656 and \$25,601 respectively. These contributions were equal to the required contributions for each year.

NOTE 6 – LONG-TERM DEBT

Loan payable to the United States Department of Agriculture, secured by the District's levy and Collection of assessments or use charges as may be necessary to operate and maintain the plant and meet the payments, payable in annual payments from \$25,000 to \$43,000 including interest at adjusted rate of 4.25% per annum on the unpaid balance.

\$ 369,353

Loan payable to the North American Development Bank, secured by the District's levy and collection of assessments or use charges as may be necessary to operate and maintain the plant and meet the payments, payable in annual payments from \$ 15,000 to\$ 35,000 including interest at adjusted rate of 3.85% per annum on the unpaid balance.

\$ 295,000

Loan payable to Sun Community Federal Credit Union, payable in monthly installments of \$ 1,738, including interest at 2.74% and collaterized by two vehicles. Final payment is due May 7, 2016.

\$ 38,901

NOTE 6: LONG-TERM DEBT (CONTINUED)

Capital lease payable to Oshkosh Capital, payable in annual installments of \$ 23,983, including interest at 4.27% and collaterized by a fire truck. Final payment is due August 24, 2024. \$207,079

Total	\$	910,333	\$	249,684	\$ 1,160,017

NOTE 7 – COMPENSATED ABSENCES

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Unused vacation and sick pay are accrued in the government wide and proprietary fund financial statements.

NOTE 8 - OTHER POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description

The District has a single-employer postemployment benefit plan which provides postretirement health care benefits through the CalPERS healthcare program (PEMHCA) to eligible employees who retire directly from the District. The District pays the cost of medical premiums for the lifetime of the retiree and his or her spouse up to a maximum amount of \$ 414 per month. The District does not provide a retiree contribution for dental, vision, or life insurance benefits.

In order to be eligible for the District's contribution, the employee must have worked a minimum of 5 years with the District and be at least 50 years old in order to qualify for medical benefits. Benefit provisions are established by the Board of Directors.

Funding Policy

The District's Board of Directors will not be funding the plan in the current year. The Board will review the funding requirements and policy annually.

Annual OPEB Cost and Net OPEB Obligation

The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC). The District has elected to calculate the ARC and related information using the alternative measurement method for employers in plans with fewer than one hundred total plan members. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over the remaining period of 22 years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in its net OPEB obligation to the Retiree Health Plan:

Annual required contribution Interest on net OPEB obligation Adjustment to annual required contribution	\$ 116,138 -0- 0-
Annual OPEB cost (expense)	116,138
Contributions made	65,551
Increase in net OPEB obligation	50,587
Net OPEB obligation – beginning of year	-0-
Net OPEB obligation – end of year	\$ 50,587

NOTE 8 - OTHER POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for the current fiscal year is as follows:

	Annual	Percentage of Annual OPEB	
Fiscal Year Ended	OPEB Cost	Cost Contributed	Net OPEB Obligation
June 30, 2013	\$ 116,138	56%	\$ 50.587

Funding Status and Funding Progress

As of July 1, 2010 the actuarial accrued liability (AAL) for benefits was \$1,291,632, all of which is unfunded.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrences of events far into the future. Examples include assumptions about future employment, mortality and healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer as subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress presents multiyear trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term prospective of the calculations.

The following simplifying assumptions were made:

Retirement age for active employees – Based on the historical average retirement age for the covered group, active plan members were assumed to retire at age 59, or at the first subsequent year in which the member would qualify for benefits.

NOTE 8 - OTHER POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

Mortality – Life expectancies at the calculation date are based on the most recent mortality tables published by the National Center for Health Statistics website (www.cdc.gov). The calculation of OPEB liability for each year is based on the assumption that all participants will live until their expected age as displayed in the mortality tables. The current age for the retiree's spouse is assumed to be the same as that of the retiree.

Turnover – The probability that an employee will remain employed until the assumed retirement age was determined using non-group-specific age-based turnover data provided in Table 1 in paragraph 35 of GASB Statement No. 45. In addition the expected future working lifetimes of employees were determined using Table 2 in paragraph 35c of GASB Statement No. 45.

Healthcare cost trend rate – Healthcare cost trend rates were selected based on a combination of national and state trend surveys as well as professional judgment. The ultimate trend rate was 6.0%. The medical costs are capped at \$414 per month.

Health insurance premiums – 2010-11 health insurance premiums for retirees were used as a basis for calculation of the present value of total benefits to be paid. An employee is assumed to continue with the same medical plan upon retirement. If an employee waived medical coverage, then such waiver is assumed to continue into retirement.

Medicare Coordination – Medicare was assumed as the primary payer for current and future retirees at age 59.

Payroll increase – Changes in the payroll for current employees are expected to increase at a rate of approximately 2.8% annually.

Discount rate – The calculation used an annual discount rate of 2%. This is based on the assumed long-term return on plan assets or employer assets.

Actuarial cost method – The entry age actuarial cost method was used. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at July 1, 2013 was twenty-nine years.

NOTE 8 - OTHER POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

Plan for Funding

On an ongoing basis, the District will be reviewing its assumptions, comparing them against actual experience and recalculation the needed funding with the goal of paying for postemployment benefits out of interest earned on designated funds.

Required Supplementary Information: Schedule of Funding Progress

Actuarial Valuation <u>Date</u>	Actuarial Liability (AAL) Entry Age (a)	Accrued Value of Assets (b)	Actuarial Liability (UAAL) (a-b)	Unfunded Funded Status (b/a)	Annual Covered Payroll (c)	UAAL as a % of payroll ((a-b)/c)
07/01/10	\$1,291,632	\$ 0	\$1,291,632	0%	\$495,550	260.6%

NOTE 9 - SUBSEQUENT EVENTS

The management of the District have reviewed the results of operations for the period of time from its year end June 30, 2014 through January 13, 2015, the date the financial statements were available to be issued, and have determined that no adjustments are necessary to the amounts reported in the accompanying combined financial statements nor have any subsequent events occurred, the nature of which would require disclosure.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors of Salton Community Services District Salton City, California

I have audited the financial statements of the governmental activities, the business-type activities, as of and for the year ended June 30, 2014, which collectively comprise the Salton Community Services District basic financial statements and have issued my report thereon dated January 13, 2015. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

Management of Salton Community Services District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing my audit, I considered Salton Community Services District internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Salton Community Services District internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the Salton Community Services District internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Salton Community Services District financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of management, Board of Directors, and others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Am I wo
