Re: Public Hearing of project "Imperial Annexation #IM 3-15 Justo Felix"

Project Description: The project proposes annexation of a 27.01-acre area. One parcel to be developed as a truck parking and storage area while the other two parcels to remain vacant.

I am here today opposing subject Annexation which project description clearly states that one parcel, Assessor Parcel #044-200-079-000, **to be developed as a truck parking and storage.**

The fact of the matter is this parcel is already operating as a truck parking and storage without due consideration to the Residential Subdivision residents. Many safety issues were clearly never addressed or mitigated by the City of Imperial, street improvements, lighting, turning lanes into and out of property, widening of street, on site parking lot improvements are clearly lacking. The safety of school children from our residential subdivision was clearly ignored as this section of street is used daily by the Imperial School District school bus to pick up school children.

I ask for your consideration and denial of subject annexation at this time.

Fernando L. Argüelles
